

Testing Duel Duo

Description for Test 1: Will test that the “Draw” button functions correctly

1. Navigate to <http://localhost:3000>
2. Click on the “Draw” button.

Test 1 post conditions

1. The button should choose 2 bot cards

Description for Test 2: Will test that the “Play Again” button functions correctly

1. Navigate to <http://localhost:3000>
2. Click on the “Play Again” button.

Test 2 post conditions

1. The button should allow you to play the game again.

Description for Test 3: Will test that the “See All Bots” button functions correctly.

1. Navigate to <http://localhost:3000>
2. Click on the “See All Bots” button

Test 3 post conditions

1. The button should display all possible bot cards.

Note: I couldn't get the Duel Duo game to work, which I know is my mistake, but I'll write a Bug Report as if it wasn't supposed to work, if that makes sense.

Bug Report

Description

The “See All Bots” button doesn't function

Steps to reproduce

1. Navigate to <http://localhost:3000>
2. Click on the “See All Bots” button

Expected Result

- Clicking the button should display all available bot cards.

Actual Result

- Nothing happens

Environment

- Windows 11
- Edge Version 101.

Bug Report

Description

The “Draw” button doesn’t function
